INTERVIEW LOG SHEET

 $APCC\ Oral\ History\ Program-State\ Library\ reference\ no.\ for\ Somerville\ Collection\ OH\ 714/12$

An interview conducted by Bernard O'Neil with Ron Sinclair, Waite Institute, South Australia on 18 December 2008 and 8 January 2009.

Time	Subject	Proper names
111110	Disk 1	110per numes
0:23	Born Sydney, 1946; attended Epping Boys High School; impact of reading books on career; kindergarten—school—university colleague; Bachelor of Science in Agriculture, and research assistant at Sydney University, mid 1960s; university farms; wildlife biologist in Zambia, 1971; married, 1970.	Adelaide; Sydney; Gerald Durrell; Geoffrey Robinson; Sydney University; Camden; Zambia; Lake Tanganyika
	Surveying by FAO researchers; low-level flying counting animals; interest in a PhD.	United Nations Food and Agriculture Organisation; Graham Caughley; Luangwa Valley
	Began PhD on distribution and abundance of kangaroos in western NSW, 1974; rainfall of 1973–74 affected PhD.	Caughley; Sydney University; Central Australia; New South Wales; Zambia; CSIRO; Charles Birch
	VPCA job in South Australia on dingo baiting, 1978; field trips surveying native birds, reptiles and mammals; Institute of Medical and Veterinary Science's collection of native small mammals.	Peter Bird; University of Canberra; Vertebrate Pest Control Authority; Blacks Rd; Institute of Medical and Veterinary Science; Chris Watts; Peter Bavarstock; CSIRO; Canberra; John McIlroy; NSW; WA
	Testing 1080 by VPCA preserved its usage in SA; dingobaiting programs; poisoning water holes; Dog Fence.	John Bromell; United States Department of Agriculture; Coopers Creek–Diamantina area; Bird; Moolawatana Creek; Northern Flinders Ranges; Far North
	Vertebrate Pest Control Authority as a statutory authority.	Department of Agriculture
	Move from dingo work to bird problems Adelaide Hills, 1984; VPCA and National Parks joint committee on native species; never worked on rabbits until 1996.	Bromell; David Wotten; Summertown; Fauna Management Coordinating Committee; Joan Paton; Bird
	Mouse plague work in the Murray Mallee, 1984.	Brian Cooke; [Murray] Mallee; Peter Allen; Wanbi; Department of Agriculture; Greg Mutze
	Mouse plague, 1987; research into risk of the strychnine left in dead mice; information used in the 1993 outbreak.	Mutze; Bird; Department of Health
	Work on rosellas in cherry orchards in Adelaide Hills; changes in management practices.	Bird; Adelaide Hills; Bill Bishop; Basket Range; Lenswood Research Centre; Summertown; Christo
	Contacts through vertebrate pest conference, Brisbane; use of netting from c. 1987; idea originated in New Zealand.	Brisbane; NSW; Queensland; Lenswood Research Centre; [Colin Plane]; Paul James; Bird; Tim Reynolds; BHP Steel; Adelaide Hills; United States; New Zealand; Young, NSW; Victoria
	Work on starlings and starling damage in vineyards; work on bird damage in the dried fruits industry.	National Feral Animals Control Program; David Paton; Adelaide University; Adelaide Hills; Barossa; Clare Valley; [Christine Campbell]; Dried Fruits Research Council; Loxton Research Centre; Riverland; Barossa Valley
	Disk 2	
	Bird damage in dried fruits industry, including Victoria.	Loxton; Mildura; Sunraysia District
	Big mouse plague, 1993 – role of minister, methods of treatment, use of strychnine; outcome for 1994.	Richard Downward; Kevin [Heinrich]; Mutze; Pinnaroo; Richard Carter; ABC; Alison Caldwell; Robin Hood; Tailem Bend; Riverina, NSW; WA

Determining environmental fate of strychnine; export markets; mice started up in the Darling Downs, 1995; commercialisation of treatment process, 1996. Markets; mice started up in the Darling Downs, 1995; commercialisation of treatment process, 1996. Markets; mice started up in the Darling Downs, 1995; commercialisation of treatment process, 1996. Markets; mice started up in the Darling Downs, 1995; commercialisation of treatment process, 1996. Markets; mice started up in the Darling Downs, 1995; calicitivitus; liaison with local Aboriginal community; media work; rabbit haemorrhagic disease; liaison with New Zealand; effect Queensland; Point Augusti, Strackly Sear Queensland; Poin		,
Involvement with rabbits from 1995 – calicivirus; liaison with local Aboriginal community; media work; rabbit haemorrhagic disease; liaison with New Zealand; federal legislation; tracking the virus; release at Turreffield Research Station. Research Station. RHD work at Turretfield Research Station since 1996. Impact of myxomatosis and calicivirus on rabbits and other animals. Ongoing work on pest birds – technical advice to WA spread of disease via piggeries. Getting 1080 products re-registered. Authority Research focus of career. Getting 1080 products re-registered. Nature of the Vertebrate Pest Control Authority; practical vs theoretical experience; VPCA merger with PPC. Role of research staff after Animal and Plant Control Commission formed; some crossovers between pest animals and pest plants; loss of staff and direction. Attitude towards a natural resource management agency; silo mentality retained. Attitude towards an antural resource management agency. New project management computer systems; management attitudes towards research Less connectivity between APC and the NRM Council. Pormation and role of Rural Solutions in PIRSA. Involvement in government/political matters, legislation, ministers; crises – mouse plague, 1993. Landholder reaction to APC's work in crises; change in public service mentality. Relations with landholders – a generational change with more women, technology and education. Law enforcement vs advising landholders of the rules and best practices; being an expert witness; appeals. A very stable organisation over a long period; silo mentality; contact with other organisations. Cooperative Research Centres' work – Invasive Animal, Weed, Desert Knowledge. Attending and presenting at conferences; publications. Staff and board people furthering the vision of animal and plant control over long periods – a strong environmental bent.	markets; mice started up in the Darling Downs, 1995;	Barley Board; Wheat Board; Darling Downs Grain Growers Association; Mutze; WA; Animal Control Technologies
